

JACKSTACK®

Master of Space

**The world's fastest and most versatile
Food preparation, storage & serving system.**

Welcome to JackStack

For more than 25 years we are selling our plate racks all over the world. Our fast serving and storage system is helping many chefs with their operation in a busy kitchen. Lack of space has always been one of the major problems in any professional kitchen. Our patented JACKSTACK® plate racks make it possible to stack plates, of any size, from 12 up to 104 plates. Different arm spacing allow covered and non-covered dishes. Our range of products offers you mobile, counter and wall models. With using the JACKSTACK® plate racks you will be able to prepare dishes in advance, so pressure with your kitchen staff can be secured at a lower level. You will save labor, space and time!

The JACKSTACK® plate racks are all made up of a welded steel construction. The black electrostatic powder coating finish, which is scratch and rust resistant, is FDA and NSF approved. The JACKSTACK® plate racks, when used properly, only need a regular washing, and no further particular maintenance. Installation takes only minutes; no bolts or tools needed. All JACKSTACK® products are manufactured in the European Union (Sweden) and are sold with a two year warranty.

JS072

JS088

Mobile models

One or two persons can easily move the vertical plate tower in a minimum of time to storage or banquet area. The 15 cm (6") diameter swivel wheels, of which two with brake, care for extra stability. Load and unload from 4 sides. Quick-change, sliding uprights allow fast, smooth resetting to any new plate size wanted. Starting from 36 plates up to 104 plates you can choose the most convenient model for your operation. Clearing up with JACKSTACK® takes no time, up to 400 plates are taken to the dish wash department in one go. Different arm spacing allow covered and non-covered dishes. Combine different size dishes on the same JACKSTACK®. Imagine; 104 plates on a footprint of a tea towel!

All mobile plate racks are equipped with 4 swiveling wheels (Ø 15cm/6") of which 2 with brake.

JACKSTACK® JS104

JACKSTACK® JS104/9''

- Handles thin pan, deep dish or screens of any size.
 - Extra-long arm length of 23 cm (9").
- Stacks up to 104 pizzas of any size. Your pizzas are ready for the oven and your guests can be served faster! Major pizza chains now using JACKSTACK® rave about their benefits!!!

Counter models

These tabletop models are particularly convenient in small kitchens and will assist you with the preparation of plates. The steady base, with adjustable feet, will secure the swiveling top. The swivel top ensures plates are always facing you and allow you to load and unload from 4 sides. Quick-change, sliding uprights allow fast, smooth resetting to any new plate size wanted. Choice of two models with capacity of 36 or 52 plates. Next to the swiveling models we have two steady small models with capacity of 12 or 24 plates.

JS036C

JACKSTACK® JS052C

- Swivelling Table top Rack for 52 plates.
- 5 cm (2") spacing between plate support.
- Dimensions: 48 x 48 x 89 cm (18.9" x 18.9" x 35").
